Time: Lunch and Learn 12:00 - 1:00 p.m. PST

Cost: Free

Hosted By: San Diego-Imperial Chapter

Please join us for the first of the 2019-2029

HFMA Region 11 Webinar Series, hosted by San Diego-Imperial Chapter. The US Department of Veterans Affairs (VA) augments its own healthcare resources by purchasing care from non-VA community providers.

This is done under a variety of overlapping programs that combine to create a complex environment in which community providers must operate. In addition to the inherent complexity, there is substantial uncertainty related to the future of the VA purchased care programs and how hospital participation will be impacted over time.

Kirby Yawn, Senior Vice President from Argos Health will review these complexities with solutions to help you navigate your claims. Kirby received a Bachelor of Business Administration from the Terry College of Business, University of Georgia, with a focus in Management. Kirby helps lead the forward growth of the Company.
